Diabetic®

JOINT REPAIR FORMULA

Suitable Formula for Diabetic Patients

People with diabetes are twice as likely to develop arthritis and debilitating joint pain. That's why we've designed this unique formula with diabetic-safe ingredients that help support joint health and relieve joint pain without the need of using NSAIDs.

Serving size: 2 effervescent tablets

	Amount per serving	% NRV
Vitamin C	200 mg	250%
Vitamin D	20mcg (800IU)	400%
Calcium (as calcium carbonate)	300mg (833mg)	38%
Magnesium (as magnesium oxide)	200mg	53%
Boron	3mg	*
Chondroitin sulfate	800mg	*
MSM (methyl sulfonyl methane)	600 mg	*
Fish collagen	400 mg	*
Hyaluronic acid	200mg	*
Turmeric (rhizome extract)	100 mg	*

NRV – Nutrient Reference Values

* NRV not established

INGREDIENTS: Acidity regulator: citric acid; bulking agent: sorbitol; chondroitin sulfate (chondroitin sulfate sodium salt) (**from fish**); acidity regulator: sodium hydrogen carbonate; calcium carbonate; methylsulfonylmethane; hydrolyzed **fish** collagen; magnesium oxide; sodium hyaluronate (hyaluronic acid); L - ascorbic acid (vitamin C); acidity regulator: malic acid; stabiliser: polyethylene glycol; natural lemon flavour with other natural flavours; curcuma longa rhizome extract (*Curcuma longa L.*) DER 10:1; sweetener: sucralose; stabiliser: polyvinylpyrrolidone; boric acid; colour: riboflavin; cholecalciferol (vitamin D3). .

Turmeric is an ancient Indian spice. It's a potent anti-inflammatory and antioxidant. Supports overall health and helps ease joint pain and discomfort, among other benefits.

Chondroitin Sulfate is a natural substance found in the tissue of the joints. It has antioxidative, anti-inflammatory, anti-osteoarthritic, and hypoglycemic effects. Prevents joint destruction and helps the mechanical characteristics of the joints.

MSM is rich in organic sulfur, an important ‘building block’ for healthy bones and joints and very useful for the immune system.

Boron is a trace mineral that relieves joint pain and stiffness associated with arthritis, by reducing the enzymes that cause an inflammatory response.

Collagen accounts for about one-third of the body's protein. Studies have shown that as you age, your body produces less and lower quality collagen. Collagen is the main component of cartilage, ligaments, and tendons. It is also the main protein in the composition of bones and teeth.

Vitamin C is essential to the formation of collagen.

Hyaluronic acid (HA) is a component that is particularly abundant in the synovial fluid. It acts as a lubricant and protective cushion. HA helps improve internal joint lubrication and reduce friction, helping reduce pain and inflammation.

Calcium and Vitamin D3 support muscle and bone health.

Magnesium contributes to increased bone density and helps prevent the onset of osteoporosis. Magnesium is necessary for maintaining a steady heartbeat and normal blood pressure to maintain heart health. Magnesium also helps with constipation caused by calcium supplementation.

- BIOFLEX IS RECOMMENDED FOR:
- In case of premature (early) wearing out of the joints;
 - Promotes recovery process after traumas;
 - In case of joint tension and pain.

RECOMMENDED DAILY DOSAGE:
Adults: take 2 effervescent tablets daily, or as directed by a physician.
Each tablet is dissolved in a glass of water (200 ml).

WARNINGS:
Do not use if you are allergic to any of the ingredients. Do not exceed the recommended daily dosage. Excessive consumption may have a laxative effect
This product is a food supplement. Do not use it as a substitute for a varied diet.
Storage Condition:
Keep the tube tightly closed in a dry and cool place at a temperature below 25°C, out of the reach of children.
Packaging:
Each box contains three tubes of 20 Effervescent tablets.
