BIOFLEX has been wisely designed by experts. Its ingredients Glucosamine, Chondroitin and MSM help notoriously improve the affected areas.

BIOFLEX is a topical analgesic that provides fast, deep penetrating, long lasting and soothing relief from minor pain associated with bruising and inflammation. It also has skincare and relaxing properties.

Chondroitin is a component of the cartilage, which prevents water penetration into tendons and joints. It prevents joints destruction and helps the mechanical characteristics of the joints.

Glucosamine helps the formation and repair of cartilage.

MSM (Methyl Sulfonyl Methane) is a source of organic sulphur, which takes part in collagen Synthesis.

Menthol provides a cooling and numbing sensation to the skin and prevents the pain from traveling to the central nervous system. While the effects of menthol are immediate, there are also long-term benefits. By increasing blood flow, it allows the skin to absorb other ingredients and deliver nutrients that are necessary for cellular repair.

Ginger Extract has a favourable effect on joint bloating and pain.

Collagen hydrolysate is a complex structural protein that helps maintain the strength, flexibility of joints.

Aloe Vera as a calming effect that reduces itching and inflammation
