

BioVision

dietary supplement

with lutein and zeaxanthin to help your eyes function their best

Properties:

Dietary supplement BioVision is rich in vitamins C and E, zinc, copper and Mexican marigold flower extract, containing zeaxanthin and lutein. Human body does not naturally produce the lutein and zeaxanthin it needs, therefore both have to be supplied in sufficient quantities. Dietary supplement BioVision contains Mexican marigold flower extract, which is a rich source of natural carotenoids, including zeaxanthin and lutein. Most lutein accumulates in the macula - the structure of the eye responsible for seeing the colors and sharpness of the image and lutein deficiency worsens functioning of the vision. Vitamin C, vitamin E and copper contribute to the protection of cells from oxidative damage. Vitamin C also contributes to normal functioning of the nervous system, while zinc contributes to the maintenance of normal vision, protecting our eyes from the harmful effects of the environment.

Ingredients:

Vitamin C (L-ascorbic acid), Vitamin E (DL- α -tocopheryl acetate), Zinc (7-water zinc sulfate), Mexican Marigold Flower Extract (20% Lutein and 4% Zeaxanthin) Tagetes erecta, Copper (Copper Sulfate 5-water), magnesium salts fatty acids.

Recommended for:

- Protection against high-energy light waves, like UV rays in sunlight;
- Better vision, especially in dim, low light;
- Holding off age-related eye diseases.

Recommended daily dose of the product:

Take 1 capsule per day. Do not exceed the recommended daily dose, i.e. 1 capsule per day.
