Vitamin A	4000 µg	400 µg 50% NRV*
Vitamin D	50 µg	5 µg 100% NRV*
Lysine	2000 mg	200 mg

*NRV – Nutrient Reference Values

Nature's treasure from the beehive

Based on rich experience and knowledge, Medex has been discovering the inexhaustible treasures of the beehive and using them in its products since 1954. We are proud to maintain and contribute to the beekeeping tradition and the tradition of obtaining bee products. Tradition is the source of our inspiration. We combine this with high manufacturing standards and use ingredients of proven quality, relying on innovation and knowledge to deliver carefully developed products. Through these products you will discover the secret which turns the efforts of hard-working bees into a veritable miracle of nature.

Honey is a sweet gift of nature made by bees from flower nectar (nectar honey) or from the secretions of the insects that are left on trees in the form of a sticky fluid (manna honey). Nectar honeys include floral, black locust, chestnut, linden and rapeseed honey, while manna honeys include forest honey as well as fir, maple, oak tree and pine honey. The bees process the nectar or manna, enrich it with secretions from their glands, and then store the fluid and let it mature in the honeycomb. Honey is a supply of solar energy and life fuel in a beehive. It contains valuable nutrients and is therefore regarded an excellent nourishing and beauty product.

Vitamin A , vitamin C , vitamin D , vitamin B12 and vitamin B6 contribute to the normal function of the immune system.

Vitamin D contributes to the maintenance of normal teeth and bones and to normal blood calcium levels.

Thiamin , riboflavin , niacin , vitamin B12 and vitamin B6 contribute to normal function of the nervous system.

Pantothenic acid , niacin , vitamin C , riboflavin , vitamin B6 and vitamin B12 contribute to the reduction of tiredness and fatigue.

Vitamin B6 and vitamin B12 contribute to normal red blood cell formation.

Lysine helps the body absorb calcium and increase in height and weight.

Net quantity: 140 ml
